TECTIONS and NERVOUS DISEASES.

This is one of the most efficient, pleasant, and safe compositions ever offered to the public for the cure of the various derangements of the этомасн and nowness, and the only article worthy of the least confidence for curing CHOLERA INFANTUM or SUMMER COMPLAINT; and in all the above disease, it really arts like a charm. eases it really acts like a charm.

eases at really acts like a charm.

All persons are requested to try it, for without exception, it is one of the most valuable family medicines ever yet discovered. Hundreds, nay, thousands of certificates have been received from Physicians, Clergymen, and families of the first respectability, bearing the strengest testimony in its favor, too numerous to publish.

New York, May 20, 1837.

Dr. D. Jayne—Dear Sir—Having made use of your Carminative Balsam in my family, and finding it to be admirably adapted to the complaints for which it introduced to the complaints for which it is intended, I take pleasure in recommend which it is intended, I take pleasure in recommending it to the use of my friends and the public generally, believing that those who are afflicted with any of these complaints will find relief in the use of this valuable medicine. JONA. GOING, D. D.,

President of Granville College, Ohio.

Woodstown, Salem co., N. J., May, 1837.
From a long acquaintance with Dr. Jayne's Carminative Balsam, I believe it to be a very happy combination, and a useful medicine in many complaints which almost constantly occur in our country, such as Bowel Affections of children, Cholic, Cramps, Looseness, Dyspeptic, Disorders of the Stomach, Coughs, and Affections of the Breast, together with all those diseases attended with sourcess of the Stomach; and believe that physicians ness of the Stomach; and believe that physician will often find it a useful remedy in their hands, and one that is proper for domestic use, and can be put into the hands of persons at large with perfect safety. WM. BACON, M. D.

BALTIMORE, March 27, 1833. Dr. Jayne—Dear sir—You ask me what proofs meet with of the efficacy of your Carminative. can safely say that I never prescribed a medicine fo Bowel Complaints that has given me so much satis faction, and my patients so speedy and perfect relie as this. Whenever introduced into a family, it becomes a standing remedy for those ailments, and is called for again and again, which I think a pretty good proof of its efficacy and usefulness. In the Summer Complaint of children it has frequently ap-peared to snatch the little victims, as it were, from the grave. "It saved the life of my child, and of such and such a child," I have repeatedly heard said. In dysenteric affections of adults, I have time and again seen it act like a charm, and give permanent relief in a few hours, I may say in a few minutes. In fine, it is a valuable medicine, and no fam

ily should be without it. Respectfully,
M. L. KNAPP, M. D.,
Late Physician to the Baltimore Dispensary, and
Agent for the Maryland Vaccine Institution.

BRIDGETON, N. J., July 19, 1836.
This may certify that I have used Doctor Jayne Carminative Balsam very extensively in Bowel Com-plaints, and have not the least hesitation in declaring it superior to any preparation that I have met with, for the relief of those diseases.

Physician to the Cumberland N. J. Almsh

WORMS! WORMS!! WORMS!!

Of all diseases to which children are exposed none are so fatal to them as worms. Unfortunately children are seldom free from them, and as they imitate the symptoms of almost every other complaint, they often produce alarming effects without being suspected. Worms are not only a cause of disease themselves, but by their irritation aggravate all other diseases, wandering from one part of the body to another, winding themselves into large balls and obstructing the bowels, and frequently the throat causing convulsions, and too often death. The bes remedy ever yet known is

Dr. JAYNE'S TONIC VERMIFUGE

which is perfectly safe, and so pleasant that children will not refuse to take it. It effectually destroy WORMS; neutralizes acidity or sourness of the stomach, increases appetite, and acts as a general and permanent Tonic, and is, therefore, exceedingly beneficial in Intermittent and Remittent Fevers, Indigestion, &c., and is a certain and permanent cure for FEVER and AGUE.

whole system, but it dissolves and carries off the su whole system, but it dissolves and carries off the su-perabundant slime or mucous so prevalent in the stomach and bowels of children, more especially of those in bad health. This mucous forms the bed or nest in which worms produce their young; and by removing it—it is impossible for worms to remain in the body.

It is harmless in its effects on the system, and the health of the nations is always improved by its use

Mr. Ferdinand Woodruff used two bottles of this Verminge for DYSPEPSIA, and in the course of two weeks discharged upwards of thirty pieces of TAPE WORM, and was thereby perfectly cured.

DYOTT'S ANTI-BILIOUS PILLS

FOR REST.

S a family medicine, a mild, gentle purgative, and purifier of the blood—the general use of these celebra.
Pills throughout the United States for forty years past the strong recommendations they have acquired from

rifer of the blood—the general use of these celebrated Pills throughout the United States for forty years past, and the strong recommendations they have acquired from all classes of our fellow citizens, places there in a much more elevated situation in public estimation, than any other remedy which has heretofore been introduced.

The following are among the many diseases for which Dr. Dyott's celebrated pills are so deservedly distinguished for curing. By their counteracting properties in removing the bile from the Stomach, they prevent and cure the bilious fever, chills or ague and fever; spring and fall fevers; yellow fever; bilious choice pleurisy; dysentery; worms; bilious vomiting; sick and foul stomach.

By cleanising the bowels and stomach from all impurities, they restore the appetite; remove flatulency; cure the headache; habitual costiveness; colds; coughs; asthma; epeliptic fits; hypochondria; hysterical complaint; stransguary; gravel, &c.

By a general and copious use, they will be found very beneficial in curing the rhuematism and gout, lumbago or pains in the back. All impurities in the blood yield to their happy effects, whether proceeding from constitutional ailment, or from indiscrect intemperance.

These celebrated pills have been used to very great advantage in curing the dyspepsia, or indigestion, bronchitis, liver complaint, &c.

They are an infallible medicine for Fermele Complaints.

These celebrated pills have been used to very great advantage in curing the dyspepsia, or indigestion, bronchitts, liver complaint, &c.

They are an infallible medicine for Female Complaints generally, and especially for remeving those obstructions which are the source of their silments at certain periods, they possess the emiment advantage over most other purgatives, that while they operate gently, they produce neither costiveness, debility, nor too great excitement.

Whenever there is a predisposition to receive disease from marsh effluvia, or from a too copious use of ardent spirits, or from a vitated state of the bile, these pills will assuredly counteract it.

spirits, or from a viliated state of the bile, these pills will assuredly counteract it.

They are highly recommended to travellers by sen or land, and may be made use of without change of diet, and in situations where no exercise can be used. They will be found particularly valuable for preventing diseases incidental to hot climates, they deterge and cleanse vicide humors, open obstructions and promote the secretion of good bile, operate as an easy cathartic, as a powerful diuretic, and as a diarnhoretic.

This valuable medicine is offered to the public with the confident assurance of its superior efficacy as a remedy for worms. It not only expels the worms, but prevents the return of them, by removing the weak state of the digestive organs on which their production mainly depends. It also removes the superabundant mucus or slime existing in the stomach of children in bad health, and which forms the bed or nest in which the worms produce their young. In doubtful casea, where there is a general derangement of system from want of due action in the liver and a debilitated or torpid condition of stomach and bowels, the INDIAN VERMIFUGE gives speedy relief by cleaning the stomach and bowels and stimulating the liver to healthy action—the appetite is speedily restored, and the pule and sunken countenance give place to the plumpness of face, and the ruddy hue of health.

DR. TAYLOR'S BALSAM OF LIVERWORT. D prepared at 375 Bowery, New York, is justly celebrated as the most wonderful curative of pulmocelebrated as the most wonderful curative of pulmo-nary diseases in the whole range of pharmacy, some of our most respectable physicians use it in their prac-tice, prescribing it as the best of all remedies for pul-monary complaints and physical debility, and they unhesitatingly recommend it to be kept in every family of a consumptive tendency. It is universally received as one of the standard medicines of the day. The great merit of Dr. Taylor's Balsam is, that in all cases of pulmonary complaints it gives immediate relief. A single bottle will, in most cases, reveal its astonishing virtues, and open at once the fountain of health and strength to the afflicted. Read the fol-

lowing certificate:

"Being constitutionally predisposed to Consumption, (a number of my family having died with this disease) and having suffered from irritation of the Lungs, accompanied with cough and raising matter and blood, together with severe pain in my side and breast, till I was supposed to be beyond recovery, I was induced by advice of Dr. Perkins, as a last resort, to try "Taylor's Balsam of Liverwort," I have taken five bottles in all. I began to improve with the first bottle, and while taking the third, was so far recovered as to be able to get about. Since which covered as to be able to get about. Since which time, by continued use of it, I am quite restored, and able to attend to my usual business. To persons suffable to attend to my usual business. DYSPEPSIA.—To soothe the sufferings of disease is the D ity, to ameliorate the pangs of disease, is the grand object of medical science. This is efficiently demonstrated in the healing virtues of DR. BENJA MIN BRANDRETH'S PILLS. The cures effected by this medicine would fill volumes.

Views on indigestion as a source of undefined and irregular Nervous Sensations.

"Ill, small at first, grow larger from delay, And slowly eat their sad and cankering way; Thus by successive throes, the frame is torn, Till health and peace of mind alike are gone."

The nearth and peace of mind alike are gone."

The nerves of the human body—those necessary and mysterious agents which immediately connect man with external nature—are singularly prone to have their functions disordered by an oppressed condition of the stomach; the minute termination of that portion of the nerves expanded upon the organs of digestion conveying the morbid impression to the Brain.—And although the Head can, undoubtedly, like other organs, but the sect of primary disorder, yet in the organs, be the seat of primary disorder, yet, in the great majority of cases, the uneasy sensations there experienced are symptomatic of disordered stomach; and, further, there is abundant evidence to prove that crudities in the stomach and bowels can, grade of human existence, give rise to spasmodic action in every organ of the body; and whether we survey it in the agonizing form of the Tic Doloreaux—the alarming convulsions of the Epilectic seizure—or in the irritable condition of the nerves of the heart occasioning persons polaritation. accasioning nervous palpitation—they can all frequently be traced to the source above mentioned and be cured by mild evacuant and tonic remedies. To relieve a state of so much suffering and (in which body and mind also participate) BRAN-DRETH'S PILLS are confidently recommended; as, by combining aromatic tonic and cleaning properties, they remove all oppressive accumulations, strengthen the atomach induces a hard the stomach, induce a healthy appetite, and impart tranquility to the nervous system; and in fact, by their general purifying power upon the blood, exert a most beneficial influence in all cases of disease.—

BENNINGTON, Vt. Dec. 5th, 1843. Dear Sir:—I wish to add my testimony to the host of others that you have in favor of your valuable pills. In the year 1838, I was attacked with that disagreeable complaint the Dyspepsia, which so affected me that I could not take a particle of food, without the most unpleasant and uncomfortable sensations in my chest, head and bowels. My chest was so sore that I could not bear the slightest pressure without giving me pain. My health was most miserable; many physicians told me they thought I was in the consumptions and that if I lide to the same and the consumptions and that if I lide to the same and the consumptions and that if I lide to the same and the same a change climate, I could live but a short time.

I tried every thing in the shape of medicine, and consulted the most skilful physicians, but found no permanent relief. I became discouraged, gloomy, sad, and sick of life; and, probably, ere this, should have been in my grave, had I not fell in with your nave been in my grave, had I not fell in with your precious medicine. A friend of mine, who had been sick of the same complaint, advised me to try your pills; but having tried most other medicines without obtaining any relief, had but little faith that your pills would be of benefit to me; but, at his earnest solicitation, I procured a box and commenced taking them.

The first box produced little or no effect, and I began to despond, for fear that your medicine would prove like others I have taken; but my friends argued that one was not a fair trial, and I purchased a sec-ond, and before I had taken the whole box I began to experience a change! the pain in my chest began to be less painful, and my food did not distress me so much as formerly. I went on taking them until I had taken six boxes, and my Dyspepsia was gone, and my expectation of an early death vanished, and I felt like a "new creature." I went then a the control of the control a "new creature." I was then, and am now a healthy man. I have never since been troubled with the Dyspersia. I have administered your pills to the members of my family, and to my friends, and in all cases with good success. You can publish this if it will be of any use to you. I am, dear sir, truly yours,

Scrofula, or King's Evil, Rheumatism, Obstinate Cutaneous Eruptions, Pinples, or Pustules on the Face, Blotches, Bries, Chronic Sore Eyes, Ring Worm or Tetter, Scald Head, Enlargement and Pain of the Bones and Joints, Stubborn Ulcers, Syphilitic Symp-toms, Sciatica, or Lumbago, and Diseases arising from an injudicious use of Mercury, Ascites, or Dropsy, Ex-posure or imprudence in life. Also, Chronic Constitu-tional Disorders will be removed by this preparation.

To promote the health of the body and increas I the tranquillity of the mind, are among the most important objects for which man lives, and for which the sages of antiquity labored with incessant and unremitting toil. The constitution of man was and unremitting toil. The constitution of man was their study, in order to discover the seat of his maladies, and source of all his corporeal misery. To alleviate the drooping spirits, to inspire confidence to the desponding mind, and ease the sorrowed heart, all the arts and arguments of their philosophy and powers of reason were turned. Among the varied branches of worldly learning, there can be none equal in importance to that of the Healing Art, for the soul in a diseased body may be aptly compared to the martyr in his dungeon, which retains its real value, but has lost its usefulness. Many or most diseases have their origin in an impure or impoverished state of the blood, and this being a fluid sui generis, extending to the most minute ramifications of the system, the subtle poison is infused, and the seed being sown brings forth fruit in abundance; in one instance, causing a swelling of the glands, resulting in Scrofula or King's Evil—in another, ossification of the arteries, or turning them into bone; also, rheu-matism, and disease of the heart, cutaneous eruptions, diseases of the liver, and a variety of other maladies, which soon hurry their victim to the grave. Sands's Sarsaparilla. a purely vegetable medicine, which is the result of years of labor and chemical research, in bringing it to its present state of perfections. fectly cure these diseases, by purifying the vital fluid regenerating the constitution, dispelling diseased action, giving tone to the general energies of the system, and enabling the blood to course on freely, and bringing with it health and renewed vigor.

GALLATIN, Tenn., Feb. 27, 1844.

Messrs. A. B. & D. Sands—
Gentlemen: I have just received a letter from my father in Russellville, Ky., who wishes to purchase some of your Sarsaparilla. I have no doubt he can some of your Sarsaparilla. I have no doubt he can be the means of selling a great deal, as it has performed a wonderful cure in his family. Last December I was sent for to see my sister before she died, she having been in poor health for some two or three years, and at the time I went over to see her, she was at the point of death with the scarlet fever and a cancerous affection of the bowels, from which her physician thought she could not possibly recover. carried over with me a bottle of your Sarsaparilla and with the consent of her physician, she com-menced taking it that night. I remained with her three days, and left her rapidly improving. nusband sent a boy home with me for more of the Sarsaparilla. I sent one dozen bottles, which I be-lieve will effect an entire cure. My father writes me to that effect, and wishes through me to procur an agency for selling your valuable medicine in tha neighborhood. Respectfully, J. M. OWENS.

NEW YORK, Dec. 1, 1843.

Gentlemen: Parental feelings induce us to make the following statement of facts in relation to the important cure of our little daughter, wholly effected by the use of Sands's Sarsaparilla. For nearly three years she was afflicted with a most inveterate erup tion on the body, which at times was so bad, connec ed with internal disease, that we despaired of her life. The complaint commenced in the roots of the hair, and gradually spread until the whole head was eveloped, and then it attacked the ears, and ran down the neck, and continuing to increase, until it covered the most of the body. It commenced with a small pimple or pustule, from which water at first dis-charged; this produced great itching and burning; then matter or pus formed, the skin cracked and bled, and the pus discharged freely. The sufferings of the child were so great as almost wholly to pre-vent natural rest, and the odor from the discharges o offensive, as to make it difficult to pay that partic ular attention the nature of the case required. The disease was called Scald Head and general Sali Rheum. We tried various remedies, with little benefit, and considered her case almost beyond the reach of medicine; but from the known virtue of you

Sarsaparilla, we were induced to give it a trial.

Before the first bottle was all used, we perceived an improvement in the appearance of the eruption; but the change was so rapid for the better, that we could scarcely give credence to the evidence of our own eyes. We continued its use for a few weeks, and the result is a perfect cure. To parents we would say—If you have children suffering with any feelings of gratitude and respect, we are yours, &c. ELIZABETHTOWN, N. J., Dec. 2, 1843. Messrs. Sands—Gentlemen: It is with heartfelt gratitude for your kindness to me that I make a pub-lic acknowledgment of the benefit I have received from your Sarsaparilla. I have been for many years afflicted with a cancer in the breast, and for four years it was, as I thought, incurable; it spread very fast, so that it had nearly covered the whole breast and for many weeks I was so reduced with the loss of blood and the pain of the wound, that I was unable to turn myself in bed, and my sufferings during the whole winter were more than I can tell. With the advice of my friends, I called two of the most eminent physicians of the place, who recommended your preparation of Sarsaparilla, knowing of nothing that would be as likely to help me; which advice of readily received, and before I had taken one bottle, I found a change in my feelings which induced me to take more, and when I had taken the third bottle, was like another person both in health and strength I have taken your preparation since last March, and although the wound is not entirely healed, it is in a very favorable state, and I believe it will b means, ultimately, of my entire cure; and that the afflicted may all find the relief which it alone can give, is the wish of their and your friend, EUNICE WOODRUFF.

DEAFNESS.

Dr. McNAIR'S ACOUSTIC OIL.-Those deaf from infancy often receive, in a most miraculous manner, their hearing when they least expect it, by some trifling accident or event, which shows them how easily they might have much sooner had their how easily they might have much sooner had their hearing, and saved themselves and their friends the pain of conversing in a loud tone, without pleasure, or of being neglected and shunned, to avoid that distress which is felt mutually by the deaf person and his hearers. How sacred a duty, therefore, it is that we use all necessary means to remove such an affliction and enjoy the social qualities impleated in affliction, and enjoy the social qualities implanted in our natures! This EAR OIL has the effect so to relieve the tension, and bring into us the natural action of the parts, so as to restore the hearing when lost or impaired. This is proved by so many and well-known cases, that, where known, it needs no praise. The great wish of the proprietor is, that each may speak to others of its uncommon virtues, till sufferers may know, and be relieved and restored by its use. This will be done in all cases of recent DEAFNESS and will be done in all cases of recent DEAFNESS and
many of long standing. ALL DEAF PERSONS
should use this oil! It will relieve at once, or, if
DEAFNESS is just commencing, will remove the
cause and check its progress. Those who have been long deaf should continue its application a few weeks to hear well. Each flask has full directions for use attached to it.

District of New York." TO ALL THE WORLD WHO USE LEATHER IN ANY FOR

OIL OF TANNIN. OR LEATHER RESTORER.

A NEW CHEMICAL DISCOVERY. Most people know that skins and hides are convert-d into leather by the use of Tannin extracted from

ertain barks, &c. When the force and strength of the Tannin is worn

out, leather becomes dead, hard dry, brittle, cracked, covered with a crust, &c. This all know. To restore, then, life, softness, moistness, strength, smooth-ness, and ramove all crust, fly, or blister—restore the tannin. This substance the leather never can receive the second time; but the whole virtues of it are in this article, the OIL OF TANNIN—which penethis article, the OIL OF TANNIN—which pene-trates the stiffest and hardest leather, if it has been twenty years in use; and if it tears easily with the fingers, it imparts at once a strength that is utterly incredible until seen. It becomes like new leather, in all respects, with a delightful softness and polish, in all respects, with a delightful softness and polish, and makes all leather completely and perfectly impervious to water—particularly boots, shoes, carriage-tops, harness, hose, trunks, and in fact all things made of leather, giving a splendid polish, even higher than new leather has, and at least doubling its wear and durability, in whatever manner the leather is used. is used. THESE ARE FACTS.

Those who will may wear old shoes, groan with corns, ride with old carriage-tops—have old harness, and throw them away half used—look filthy themselves and all about them—expend double what is necessary for articles of leather to their hearts' contact for what we have the contact of the cont tent, for what we care, if their prejudices are so strong, they will oot try a new discovery. We nave no favors to ask of them, incy are the greatest sufferers, and we beg for nobody's custom or patronage. Now, gentlemen, please yourselves.
